NEWS AND INFORMATION

OT Day 2017 (Oct.27): Celebration Report

Members of AIOTA, OT Educational centers and branches organized many events around the country to mark World OT Day-2017. The Theme for this year's OT Day and OTIndia Month-2017 was "Inform, Inspire, Influence"

The main focus was on promoting OT and to spread awareness about, how the occupational therapists use processes of enabling occupation to optimize human activity and participation in all life domains across the lifespan, and thus promote the health and well-being of individuals, groups, and communities. The events planned on OT Day by AIOTA members include helping children with disabilities to participate fully in school and social situations, helping people recovering from injury to regain skills, and providing supports for older adults experiencing physical and cognitive changes. To achieve it the events arranged were scientific talks, competitive activities by students and special children, flash mob & street plays at public places, blood donation camps, relief camps for specific problems and street walk and use of print, social media and discussions on national and state TV to generate public awareness. Occupational Therapy Institutions of G.S. Medical College, TN. Medical College, LTM Medical College, Dr. DY Patil Medical Colleges of Mumbai with Bombay Branch of AIOTA, PT. DDUIPH, Jamia Humdard, Indian Spinal Injury Center and OT4Kids center, Delhi with Delhi Branch, Kerala Branch with Pratyna Center, Cochin, Mahatma Gandhi University, Jaipur with Rajasthan Branch, Bihar College with Bihar Branch, Manipal College, and T.N. Branch have sent the celebration report. The celebration report is available on AIOTA Website www.aiota.org and is also being published in AIOTA News Letter.

Ritchard Ledgard Executive Director WFOT has conveyed appreciation, thanks and gratitude to AIOTA, for once again coordinating a spectacular celebration of World Occupational Therapy Day and his appreciation to the institutions and branches of AIOTA. Visit World Occupational Therapy Day 2017 Roundup at <http://www.wfot.org/AboutUs/WorldOTDay.aspx>

Autism Therapy at Private Centers too brought under CM's Insurance

TNN | Nov 17, 2017

TRICHY: Therapy for autism will be free of cost in private centers as it has been included under the Chief Minister's Comprehensive Health Insurance Scheme (CMCHIS) in Tamil Nadu Autism spectrum disorder (ASD) leaves affected patients with impaired social interaction and communication skills. Considering the children being impaired due to the neurological condition, the therapy for autism has been listed as one of the treatments to be borne under the CMCHIS scheme.

It remained a costly affair for many people due to the expense. The inclusion of the therapy into the CMCHIS may help several economically weaker section people to get access to the therapy in the private centres. Under CMCHIS, sum insured for beneficiaries remained Rs 1 lakh for one policy year per family. The package rate for autism is Rs 1 lakh (per year) and it will be a cash less therapy.

The scheme laid down certain criteria for the therapy centres to get empanelled under the insurance scheme. Autism centres should be recognized by rehabilitation council of India and commissioner for differently abled of Tamil Nadu government. There would be some relaxations in the norms to remotely located institutions.

Minimum criteria for empanelment would be to ensure minimum infrastructure and quality therapies such as special education, occupational therapy, developmental therapy, speech and language therapy, psychologic and psychiatric therapy, physiotherapy, music, sport and outdoor therapy.

A holistic team comprising of psychiatrist, psychologist, paediatrician, occupational therapist, physiotherapist, speech therapist, developmental therapist and social worker should be appointed in the centres.

The centre should also maintain daily attendance of the patients, video evidence of counselling to prevent fraud. They should submit periodic assessments and progress reports to the scheme for payments.

Feedback from parents will also be obtained to ascertain the progress of the patients. Different internationally accepted scales of autism and IQ assessment will be used for assessment.

Medical auditors of scheme will make surprise visits to the centres. Additional director for CMCHIS, Tamil Nadu, Dr Selvavinayagam in Chennai appealed to the people to make use of the therapy.

Database Software for Allied and Healthcare Professionals

A meeting was convened on request of Department of Health and Family Welfare, Government of India at Nirman Bhavan, New Delhi on Dec. 15, 2017 with stakeholders representing occupational therapy, physiotherapy and other health related professionals. It was regarding the database portal for voluntary enrollment by allied and healthcare professionals by uploading their personal and professional data into the portal <http://a2hp.mohfw.gov.in>. Meeting was convened by Kavita Narayan, FACHE, Technical Advisor, HRH/Skills for Health, National HRH cell, MoHFW. President AIOTA Dr. Anil Srivastava with EC Members Dr. R. K. Sharma and Dr. Lalit Narayan attended the meeting.

AIOTA strongly resented the structure of Database Software for Allied & Healthcare Professionals, on the reasons that occupational therapy profession has been ignored in its totality therefore AIOTA will withdraw itself from this database. Neither the specialty areas of occupational therapy: were specified nor the names of institutions signified occupational therapy as was specified for physiotherapy are found there in the portal. AIOTA also objected the name of 'Database Software for Allied and Healthcare Professionals' and suggested the name as 'Database Software for Occupational Therapy & Physiotherapy and Healthcare Professionals' or/else there should be separate database for Occupational Therapy and Physiotherapy professions in place of the existing one, which has clubbed these professions with heterogeneous group of large no. of Health related services.

Technical Advisor National HRH Cell has responded positively and assured that, most of the issues raised by AIOTA will be addressed and necessary changes will soon be made in the database portal with an information to AIOTA for enrollment.

Book Release on World OT Day 2017

Department of Occupational Therapy of School of Allied Health Sciences, Manipal University, Manipal released the book Concepts in 'Occupational Therapy: Understanding Southern Perspectives' in presence of dignitaries of the University on the occasion of World OT Day 2017.
